fair news

February 2019

Dear Sir or Madam,

With immediate effect, the one and only official trade fair journal of the "Bright World of Metals" – called "fair news" – will be published by the Düsseldorf-based publishing house DVS Media in cooperation with Messe Düsseldorf. Commenting on this Friedrich Kehrer, Global Portfolio Director Metals and Flow Technologies, emphasised: "We are delighted to have found an extremely competent, experienced and renowned partner in DVS Media with its broad spectrum of industry relevant publications such as "SCHWEISSEN UND SCHNEIDEN", "GIESSEREI", "CASTING PLANT AND TECHNOLOGY INTERNATIONAL" and the new trade journals "Stahl & Technik" as well as "Steel + technology".

For the duration of the trade fairs GIFA, METEC, THERMPROCESS and NEWCAST "fair news" will feature the latest news on a daily basis for the approximately 78,000 trade visitors from all over the world and cover all the activities at these four leading international trade fairs. From 25 to 29 June "fair news" will report in German and English on technical innovations, the latest developments in the sectors, the programme of expert side events and on what is happening at the four trade fairs.

The daily newspaper will be published in a handy format with a total circulation of 50,000 copies and be distributed to exhibitors and visitors every day – at the main entrances to the Düsseldorf exhibition centre, inside the exhibition halls, at the accompanying congresses and symposia, at the information counters of Messe Düsseldorf as well as at the international trade press stand. "fair news" will already be available early in the morning before the trade fair starts in many hotels, at Düsseldorf Airport and Düsseldorf's central railway station.

For detailed information on "fair news", its editorial concept, contacts and media data go to: www.homeofsteel.de/fair-news.

With best regards & wishing you a successful "Bright World of Metals"
